Message from the

## **PRESIDENT**

International Medical School

IMS provides excellence in every sphere of education. We always provide the best education and facilities to our students to facilitate their overall development. Studying IMS is one of exposure and rich local culture. We have integrated a high level of technology and media resources with our curriculum to provide wholesome knowledge to our students. We are imparting not medical education but also inculcating the professionalism required in doctor. At IMS we follow international standards of education and curriculum designed and approved by leading academicians and medical professionals which help in our international students to be at par with their medical counterparts in respective nations.

Apart from educational excellence the IMS campus is the second home for students coming from multiple nationalities. For us every student is part of our IMS family.

**“The search for knowledge is a lifelong activity in which it is important to remain purposeful, creative and open.**

**Don't be afraid to challenge the well-known and explore the unknown!”**
